Openings. Open up to a new way of thinking.

The garage. It's more than a way in, or a way out.

Inside it's a parking lot, a gym, a workshop.

Outside, it's an extension of your home, a reflection of your personality, of your individuality.

Whether you prefer steel, wood, or aluminum, rethink what a garage door is, or can be.

Amarr Openings. Open up to the possibilities.

Amarr Classica Tuscany design with Madeira windows in True White

AMARR ADVANTAGE

Style and Variety

We offer a broad range of garage door designs to meet your unique needs; whether your home is traditional or contemporary, our Amarr garage door designs can add beauty, curb appeal and long lasting value to your home.

Energy Efficiency

Maintain the temperature in your garage with a garage door with a high R-value rating. We offer a wide range of insulations and door thicknesses to provide the level of energy efficiency you desire.

Safety

Garage doors are the largest and heaviest moving object in the home. Amarr garage doors have a patented safety bottom bracket to reduce the risk of serious injuries.

Protection

Amarr hurricane rated garage doors with impact resistant construction help protect homes and property in hurricane and high wind prone regions.

Sustainability

Amarr products are made with up to 90% recycled content and approximately 5-10% of the steel is reused at the steel mill.

Made in USA

All Amarr residential and commercial steel and aluminum garage doors are manufactured in

the USA, affirming our commitment to high quality and durability.

CLASSICA® FLUSH

Sleek and sophisticated. Amarr Classica Flush garage doors complement any modern architectural style home. The flush design is ideal for homeowners who want a contemporary look with the taller panels of a 3-section door. Polyurethane insulation is energy efficient and helps moderate garage temperatures year round.

CLASSICA®

Looks can be deceiving. From a distance, you see wood. Up close, it's sturdy, durable, low-maintenance steel. The Amarr Classica collection of carriage house doors. Precision-shaped doors in fresh, clean, classic carriage house styles that go up and down like traditional garage doors. Unique three-section tall designs, instead of four, help deliver a more authentic carriage house look. Deception never looked so good.

¹ It is your responsibility to make sure your garage door meets local building codes.

² Optional: Special-designed doors meet guidelines for CA Building Codes for use in Wildlife Urban Interface (WUI). Fire-rated doors with insulated and tempered glass windows available.

³ For complete warranty details, visit amarr.com or contact your local Amarr dealer.

* Optional: Wood-on-steel section construction is available. Some wind load pressures may require wood-on-steel section construction.

Doors are shipped natural. Priming is available for paint grade doors. All doors require finishing on all six (6) sides of each section within two days of receipt of door(s) and prior to installation. Visit amarr.com for finishing recommendations.

HARDWARE SPECIFICATIONS

TRACK: 2" industrial grade galvanized .083 horizontal and vertical track. Standard lift 25C-15" radius or 2LC-6" low headroom clearance. For doors over 650 lbs, 3" track.

HINGES: Up to 12': Single-end 11ga graduated galvanized. 12' and over: Double-end 11ga graduated galvanized.

ROLLERS: 2" nylon 10-ball bearing commercial rollers (short stem for up to 12'; long stem for 12' and over).

STRUTS: 3" galvanized struts

COUNTER BALANCE: 10,000 cycle torsion springs, cast aluminum cable drums, 1" diameter 11ga torsion tube. For doors over 650 lbs, solid core steel shaft and coupler if exceeding 151" in length.

FASTENERS: Cadmium plated fasteners (standard) for on-door hardware and securing tracks to jambs. All hinge fasteners are factory installed with concealed bolt heads (under the trim overlay).

OPERATION: Manual push-up. No lock assembly is supplied. Electric openers with 3/4 hp recommended for best possible operation.

Doors available in various heights and widths. Hardware specifications are consistent with doors not exceeding 18' wide and 10' high. Requirements escalate with door size and weight and have limitations. Contact your local Amarr dealer for specific details.
